

SASANTHA SANJU RATHNAYAKA

SOFTWARE ENGINEER

+94 70 417 9898, +94 78 261 0280 | sasanthasanju1111@gmail.com | Badulla, Sri Lanka
linkedin.com/in/sasantha-sanju | github.com/sasantha1

SUMMARY

Dynamic and detail-oriented Software Engineering undergraduate with a strong foundation in full-stack development, problem-solving, and modern software architectures. Passionate about building scalable, user-centric applications and eager to apply academic knowledge and hands-on project experience to deliver high-impact solutions in a fast-paced tech environment. Quick learner with excellent collaboration skills and a proven ability to thrive in agile teams.

EDUCATION

- **BSc (Hons) in Software Engineering** | NSBM Green University, Sri Lanka | 2023 – 2027 (Expected Graduation)
- **G. C. E. Advanced Level Examination (High School Secondary Education)**
- **G. C. E. Ordinary Level Examination (High School Education)**

SKILLS & COMPETENCIES

Java • Python • JavaScript • SQL & NoSQL Databases • React & Node.js • Software Design Patterns • Git & Version Control • Agile & Scrum Methodologies • Cloud Basics (AWS/Azure) • Problem Solving & Debugging

PROJECTS

POS System with WhatsApp Billing Integration

Individual Project

Desktop Point of Sale application featuring sales processing, inventory management, customer database, credit ledger tracking, and thermal printer support. Automated customer receipts and invoices are instantly delivered via WhatsApp using the Meta WhatsApp Business Cloud API. Implemented advanced Sinhala Unicode rendering with proper font shaping and complex text layout for accurate local language receipts.

- **Technologies:** Python, Tkinter, SQLite, Meta WhatsApp Business Cloud API (Graph API), Thermal Printer Integration, RAQM / Complex Text Layout

NexPos – Point of Sale (POS) Management System

Full-Stack | Sep 2025 – Present | Personal Project

<https://github.com/sasantha1/NexPos>

Complete retail POS system featuring sales billing, inventory tracking, barcode scanning, and analytics dashboard.

- **Technologies:** React.js, Express.js, Node.js, MySQL.

EduManager – Student Management System

Full-Stack | May 2025 – Present | NSBM Green University (Enterprise Applications)

<https://github.com/sasantha1/EduManager>

Comprehensive web platform for managing students, teachers, and administrators with portals, academic tracking, and reporting.

- Developed using three-tier architecture with secure JWT authentication and CI/CD.
- **Technologies:** React 18 + TypeScript, Spring Boot 3, Java 17, MySQL, Hibernate, Docker.

GoviMaga – Smart Agriculture Mobile App

Flutter | Apr 2026 – Present | NSBM Green University (Group Project)

<https://github.com/malshanchanu/GoviMaga-Mobile-App-Flutter>

Cross-platform mobile application empowering farmers with crop management, real-time market prices, buyer-seller marketplace, and AI assistance.

- Developed frontend UI, Firebase integration, Profile module, and Gemini AI features.
- **Technologies:** Flutter, Dart, Firebase, Google Gemini AI.

MotorMart – Vehicle Auction Platform

Full-Stack | Oct 2025 – Present | NSBM Green University

<https://github.com/NilangaAbhisheka/MotorMart>

End-to-end vehicle auction marketplace with real-time bidding, multi-role dashboards (Buyer, Seller, Admin), and watchlist functionality.

- Built frontend and contributed to backend API, authentication, and auction state management.
- **Technologies:** React 18, Tailwind CSS, ASP.NET Core 9, Entity Framework, MySQL, JWT.

Construction Company Website

Frontend | Jan 2026 – Present | Personal Project

https://github.com/TharinduThilakshanaOthildezo/Constrct_TDz.lk

Modern, fully responsive website showcasing company services and projects.

- **Technologies:** React.js, JavaScript.

Uni-Culture (UC 1.0)

Frontend | Jul 2025 – Present | Personal Project

<https://github.com/TharinduThilakshanaOthildezo/Uni-Culture-UC-1.0>

University social platform for campus events and cultural activities.

- **Technologies:** HTML5, CSS, JavaScript.

CERTIFICATIONS

Python for Data Science, AI & Development | IBM | Jun 2026

Getting Started with Google Gemini API | Google DeepMind | Jun 2026

National Certificate - Computer Graphic Designer (NVQ Level 4) | College of Technology, Badulla, Sri Lanka
